(AM7010)

A-3	52.222-1100 OSC	10 U.S.C. 4543 PILOT PROGRAM	FEB/2003
-----	--------------------	------------------------------	----------

Congressional language in Section 141 of the 1998 Defense Authorization Act (10 U.S.C. 4543 Pilot Program) allows "not more than three Army industrial facilities" to sell manufactured articles and services in support of DoD weapon systems without regard to availability from domestic sources. The three Army industrial facilities in this program are McAlester Army Ammunition Plant, McAlester, OK, Rock Island Arsenal, Rock Island, IL, and Watervliet Arsenal, Watervliet, NY.

These facilities cannot submit offers as the prime contractor on this solicitation, but in accordance with the above-described pilot program can act as a subcontractor to potential prime contractors when the statutory requirements (10 U.S.C. 4543) are met.

If you are interested in obtaining information about their capabilities, please contact the following:

McAlester Army Ammunition Plant

A-5 52.252-4500 FULL TEXT CLAUSES SEP/1997
OSC

1. The entire body of full text regulatory and command unique clauses and provisions will no longer be included in solicitations or contracts. These clauses and provisions have the same force and effect as if the entire full text was included in the solicitation/contract. Where text has been removed three astericks are put in its place (***).
2. You can view or obtain a copy of the clauses and provisions on the internet at: www.osc.army.mil/ac/aaais/osc/clauses/index.htm. Click on command unique first to locate the clause. If it is not located under command unique click on regulatory to find.
3. All full text clauses have a 6 or 7 as the third digit of the clause number (i.e. AS7000).

(End of clause)

(AS7001)

1. THIS REQUEST FOR PROPOSAL, DAAA09-03-R-0115, IS AN 100% SMALL BUSINESS SETASIDE SOLICITATION FOR THE FOLLOWING:

NOMENCLATURE: MK14 SUSPENSION LUG
NSN: 1325-00-991-8890
P/N: 1555268
QTY: 187,542 EACH

OFFERORS ARE FURTHER ADVISED TO CAREFULLY REVIEW THE TECHNICAL DATA PACKAGE PRIOR TO SUBMITTAL OF A RESPONSE.

2. THIS TECHNICAL DATA PACKAGE (TDP) IS CLASSIFIED AS "DISTRIBUTION D" LIMITED DISTRIBUTION, IN ACCORDANCE WITH DOD 5230-24. TO OBTAIN TDP/CD ROM FOR THIS SOLICITATION, REQUESTER MUST FURNISH THE CONTRACT SPECIALIST, MARY C, HILL AT HILLM@OSC.ARMY.MIL, A COPY OF REQUESTERS CERTIFIED REGISTRATION FORM, DD FORM 2345, MILITARILY CRITICAL TECHNICAL DATA AGREEMENT. BLANK REGISTRATION FORMS CAN BE FOUND AT HPPT://WWW.DLIS.DLA.MIL/JCP, UNDER THE FAQ'S. IT IS THE REQUESTOR'S RESPONSIBILITY TO ENSURE THAT THE ENTITY/INDIVIDUAL REQUESTING THE TDP IS PROPERLY REGISTERED. ONLY, REPEAT, THOSE REQUESTOR'S COMPLYING WILL BE ELIGIBLE TO RECEIVE THE TDP.
3. OFFERS ARE TO BE PREPARED AND SUBMITTED WITH AND WITHOUT FIRST ARTICLE, FOB DESTINATION, WITH A 200% EVALUATED OPTION BASIS. THIS SOLICITATION WILL BECOME A FIRM FIXED PRICE CONTRACT. OFFERORS SHOULD DISREGARD TOP PRICING LINES AT CLIN 001 AND INSTEAD SHOULD COMPLETE SECOND PRICING LINES FOR OFFERS WITH AND WITHOUT FIRST ARTICLE TESTING.
4. OFFERORS ARE ADVISED THAT A BEST VALUE APPROACH WILL BE EMPLOYED TO EVALUATE THOSE PROPOSALS SUBMITTED IN RESPONSE TO THIS RFP. ALL OFFERORS ARE CAUTIONED TO PAY SPECIFIC ATTENTION TO SECTION L, "INSTRUCTIONS FOR PROPOSAL PREPARATON" AND SECTION M IN ITS ENTIRETY. AWARD WILL BE BASED UPON THE FOLLOWING FACTORS AND SUBFACTORS:

FACTOR 1: PAST PERFORMANCE
SUBFACTOR 1A: ON-TIME DELIVERY
SUBFACTOR 1B: QUALITY AND/OR QUALITY PROGRAM

FACTOR 2: TECHNICAL ABILITY
SUBFACTOR 2A: CRITICAL SKILLS, PROCESSES AND PROCEDURES
SUBFACTOR 2B: QUALITY SYSTEM
SUBFACTOR 2C: TESTING AND INSPECTION

FACTOR 3: PRICE

UNDER THE BEST VALUE APPROACH, THE GOVERNMENT IS NOT BOUND TO EFFECT AN AWARD TO THE LOWEST PRICED EVALUATED OFFER IN THE EVENT THAT RECENT, RELEVANT PAST PERFORMANCE AND/OR TECHNICAL ABILITY JUSTIFIES PAYMENT OF A PREMIUM - SEE SECTIONS L AND M. FOR PURPOSES OF THIS EVALUATION, EACH OFFEROR IS TO PROVIDE THE INFORMATION SPECIFIED AT THE APPLICABLE PROVISION. AWARD WILL BE MADE TO THE OFFEROR WHOSE PROPOSAL IS DETERMINED TO BE THE BEST VALUE TO THE GOVERNMENT BASED UPON THE CITED CRITERIA. OFFERORS ARE RESPONSIBLE FOR INCLUDING SUFFICIENT DETAILS TO PERMIT A COMPLETE AND ACCURATE EVALUATION

C-3	52.210-4501 OSC	DRAWINGS/SPECIFICATION	MAR/1988

In addition to the drawing(s) and/or specifications listed below, other documents which are part of this procurement and which apply to Preservation/Packaging/Packing and Inspection and Acceptance are contained elsewhere.

The following drawing(s) and specifications are applicable to this procurement.

Drawings and Specifications in accordance with enclosed Automated Data List - ADL 1555268, REV M, DATED 02-03-03.

The technical data has been reviewed for the use of Class I ozone depleting chemicals (ODC). With the inclusion of the ODC section in the ADL, the subject procurement data package (PDP) is considered to be certified and does not contain any requirements to utilize class I ozone depleting chemicals.

Government specifications and standards listed in the ADL may be obtained from the standarization documents order desk, building 4D, 700 Robbins Avenue, Philadelphia, PA 19111-5094. Industry association specifications and standards may be obtained from the applicable associations.

E-5	52.209-4512 OSC	FIRST ARTICLE TEST (CONTRACTOR TESTING)	MAY/1994
FIRST ARTICLE TEST (CONTRACTOR TESTING)			
52.209-4512 OSC		(MAY 1994)	

a. The first article shall consist of:

50 LUGS TESTED AND INSPECTED IAW QAP 1555268, DATED 29 JAN 2003

which shall be examined and tested in accordance it contract requirements, the item specifications), Quality Assurance Provisions (QAPS) and all drawings listed in the Technical Data Package.

b. The first article shall be representative of items to be manufactured using the same processes and procedures and at the same facility as contract production. All parts and materials, including packaging and packing, shall be obtained from the same source of supply as will be used during regular production. All components, subassemblies, and assemblies in the first article sample shall have

Name of Offeror or Contractor:

been produced by the Contractor (including subcontractors) using the technical data package provided by the Government.

c. The first article shall be inspected and tested by the contractor for all requirements of the drawing(s), the QAPs, and specifications) referenced thereon, except for:

(1) Inspections and tests contained in material specifications provided that the required inspection and tests have been performed previously and certificates of conformance are submitted with the First Article Test Report.

(2) Inspections and tests for Military Standard (MS) components and parts provided that inspection and tests have been performed previously and certifications for the components and parts are submitted with the First Article Test Report.

(3) Corrosion resistance tests over 10 days in length provided that a test specimen or sample representing the same process has successfully passed the same test within 30 days prior to processing the first article, and results of the tests are submitted with the First Article Test Report.

(4) Life cycle tests over 10 days in length provided that the same or similar items manufactured using the same processes have successfully passed the same test within 1 year prior to processing the first article and results of the tests are submitted with the First Article Test Report.

(5) Onetime qualification tests, which are defined as a onetime on the drawing(s), provided that the same or similar item manufactured using the same processes has successfully passed the tests, and results of the test are on file at the contractor's facility and certifications are submitted with the First Article Test Report.

d. The Contractor shall provide to the Contracting Officer at least 15 calendar days advance notice of the scheduled date for final inspection and test of the first article. Those inspections which are of a destructive nature shall be performed upon additional sample parts selected from the same lot(s) or batch(es) from which the first article was selected.

e. A First Article Test Report shall be compiled by the contractor documenting the results of all inspections and tests (including supplier's and Vendor's inspection records and certifications, when applicable). The First Article Test Report shall include actual inspection and test results to include all measurements, recorded test data, and certifications (if applicable) keyed to each drawing, specification and QAP requirement and identified by each individual QAP characteristic, drawing/specification characteristic and unlisted characteristic. The Government Quality Assurance Representative's (QAR) findings shall be documented on DD Form 1222, Request for and Results of Tests, and attached to the contractor's test report. Two copies of the First Article Test Report and the DD Form 1222 will be submitted through the Administrative Contracting Officer to the Procuring Contracting Officer, with an additional information copy furnished to RANDY STEC, AMSJM-QAP/CDB.

f. Notwithstanding the provisions for waiver of first article, an additional first article sample or portion thereof, may be ordered by the Contracting Officer in writing when (i) a major change is made to the technical data, (ii) whenever there is a lapse in production for a period in excess of 90 days, or (iii) Whenever a change occurs in place of performance, manufacturing process, material used, drawing, specification or source of supply. When conditions (i), (ii), or (iii) above occurs, the Contractor shall notify the Contracting Officer so that a determination can be made concerning the need for the additional first article sample or portion thereof, and instructions provided concerning the submission, inspection, and notification of results. Costs of the first article testing resulting from production process change, change in the place of performance, or material substitution shall be borne by the Contractor.

ACCEPTANCE INSPECTION EQUIPMENT (NAVY/AIR FORCE)			
52.245-4537 OSC		(FEBRUARY 2002)	

a. Acquisition, maintenance, and disposition of Acceptance Inspection Equipment (AIE) shall be in accordance with ANSI/NCSL Z540-1 or ISO 10012-1. AIE shall be used to assure conformance of components and end items to contract requirements. AIE shall include all types of inspection, measuring, and test equipment whether Government furnished, contractor designed, or commercially acquired, along with the necessary specifications, and the procedures for their use.

b. The Contractor shall provide all Acceptance Inspection Equipment (AIE) necessary, except for the Government Furnished Equipment (GFE) listed in paragraph (g.8). The GFE shall be provided in accordance with the Government Property clause of this contract. The

<p style="text-align: center;">CONTINUATION SHEET</p>	<p style="text-align: center;">Reference No. of Document Being Continued</p> <p style="text-align: center;">PIIN/SIIN DAAA09-03-R-0115 MOD/AMD</p>	<p style="text-align: center;">Page 17 of 43</p>
--	--	---

Name of Offeror or Contractor:

Contractor is responsible for contacting NSWC Corona at least 45 days in advance of the date the GFE is required to schedule delivery. Government furnished AIE shall not be used by the contractor or his subcontractor in lieu of in-process or work gages.

c. Contractor AIE designs, specifications, and procedures for Critical, Major, Special, and Minor characteristics shall be submitted to the Government for review and approval in accordance with the Contract Data Requirements List, DD Form 1423. All Contractor AIE documentation requiring Government approval shall contain sufficient information to permit evaluation of the AIE's ability to test, verify or measure the characteristic or parameter with the required accuracy and precision. Contractor designed AIE requiring Government approval shall be made either in accordance with the equipment drawings specified in section C of contract (Description/Specification Section), or in accordance with any other design documentation provided that it is approved by the Government. The Government will approve the AIE documentation or provide requirements for approval within 45 days of receipt. The Contractor shall be responsible for any delays resulting from late submission of AIE documentation to the Government for approval, and any delays resulting from the submission of inadequate or incomplete AIE documentation.

d. The contractor must ensure that all AIE is approved and available for use prior to First Article Submission, if First Article is required, or prior to initiation of production under this contract.

e. Resubmission of AIE design, specification, and procedure documentation for approval on a follow-on contract is not required provided inspection characteristic parameters specified in the current technical data package and the previously approved AIE documentation remain unchanged. The contractor shall provide the contract number and identify previously approved AIE documentation that meets the above prerequisites.

f. The Government reserves the right to disapprove at any time during the performance of this contract, use of any AIE not meeting the requirements of the approved design, specification, or procedure documentation.

g. Navy Special Interface Gage Requirements (NSIG)

1. The Navy Special Interface Gages listed under this clause will be forwarded to the Contractor for joint use by the Contract Administration Office (CAO) and the Contractor.

2. The Contractor may substitute contractor designed and built AIE for the NSIG noted as applicable in paragraph g.8. However, the designs require Government approval and the contractor AIE hardware requires Government certification. AIE designs shall be submitted in accordance with paragraph c. The contractor shall notify NSWC Corona prior to submission of AIE for certification. Two copies of each Government approved contractor AIE drawing shall accompany the contractor AIE hardware sent to the Government for certification. The Government shall perform the contractor AIE certification, return the hardware and provide notification of acceptance or rejection to the Contractor within 45 days of receipt of the contractor AIE. The contractor shall be responsible for any delays resulting from late submission of documentation or hardware. The Contractor shall also submit the calibration periods for each contractor AIE for approval. The Government shall affix Calibration stickers to the contractor AIE for Quality Assurance Representative (QAR) identification.

3. The NSIGs are provided for verification of selected interface dimensions and do not constitute sole acceptance criteria of production items or relieve the Contractor of meeting all drawing/specification requirements under the contract.

4. Items that fail to be accepted by the applicable NSIGS may be inspected by another means to determine acceptance or rejection, provided the alternate inspection method is acceptable to the government approval authority.

5. The Government shall not be responsible for discrepancies or delays in production items resulting through misuse, damage or excessive wear to the NSIGs.

6. Calibration and repair of the NSIGs shall only be performed as authorized by the Naval Surface Warfare Center (NSWC), Corona Division. Repair is at no cost to the Contractor unless repair is required due to damage to the gages resulting from Contractor fault or negligence. Damaged, worn, or otherwise unserviceable NSIGs shall be brought to the immediate attention of the CAO and NSWC Corona. The Contractor shall not make any adjustments, alterations or add permanent markings to NSIG hardware unless specified by the NSIG operating instructions or authorized by the Designated Technical Activity.

7. Within 45 days after final acceptance of all production items, the NSIGs shall be shipped to NSWC, Corona Division, ATTN: Receiving Officer, Bldg 575, Gage Laboratory, 1999 Fourth St., Norco, CA 92860-1915. The following specifications are applicable:

- (i) Shipping, MIL-STD-2073, "DOD Standard Practice for Military Packaging"
- (ii) Marking, MIL-STD-129, "Marking for Shipment and Storage".

8. The following NSIGs shall be provided and are mandatory for use except as noted by an (x) for paragraph (g.2) applicability.

E-7	52.246-4506 OSC	STATISTICAL PROCESS CONTROL (SPC)	MAY/1994
-----	--------------------	-----------------------------------	----------

a. In addition to the quality requirements of the technical data package, the Contractor shall implement Statistical Process Control (SPC) in accordance with a government accepted SPC Program Plan. Control chart techniques shall be in accordance with the American National Standards Institute (ANSI) Z1.1, Z1.2 and ZI.3. Alternate SPC charting methods may be proposed and submitted to the Government for review.

b. The SPC Program Plan developed by the contractor shall consist of a general plan and a detailed plan. The plans shall be structured as delineated on the Data Item Description referenced in the DD Form 1423. The general and the detailed plans shall be submitted to the government for review per DD Form 1423 requirements. Notification by the Government of acceptance or nonacceptance of the plans shall be provided in accordance with the timeframes specified on the DD Form 1423. Once a general plan for a facility has been approved by this Command, the approval remains in effect for subsequent contracts as long as the contractual requirements remain substantially unchanged from contract to contract. Therefore, resubmission of a previously accepted general SPC plan is not required if current SPC contract clause and Data Item Description (DID) requirements are fulfilled. If this Command has previously accepted the general SPC plan under essentially the same SPC contractual requirements, so indicate by providing the Contracting Officer with the following information:

Date of Acceptance _____

Contract Number(s) _____

c. The contractor is responsible for updating the general plan to current SPC contractual requirements. If errors or omissions are encountered in a previously accepted SPC general plan, opportunities for improvement will be identified by the Government, and corrective action shall be accomplished by the contractor.

d. A milestone schedule will be submitted for those facilities who do not have, or have never had, a fully implemented SPC program and will not have a fully operational SPC program once production is initiated. The milestones shall provide a time phased schedule of all efforts planned relative to implementation of an SPC program acceptable to the Government. A milestone schedule shall include implementation start and complete dates for those SPC subjects addressed in the Statistical Process Control Statement of Work located in Section C. The milestone schedule shall only include those actions that can not be accomplished prior to first article or the initiation of production, if a first article is not required. Milestones shall be developed for each commodity identified for SPC application. Milestones shall be submitted through the Government Quality Assurance Representative to the Contracting Officer for review and acceptance. Any deviations from the accepted milestones, to include justification for such deviations, shall be resubmitted through the same channels for review. The Government reserves the right to disapprove any changes to the previously accepted milestones. Notification by the Government of the acceptance or nonacceptance of the milestones shall be furnished to the Contractor by the Contracting Officer.

e. The Contractor shall review all process and operation parameters for possible application of SPC techniques. This review shall include processes and operations under the control of the prime contractor and those under the control of subcontractor or vendor facilities. A written justification shall be included in the detailed plan for each process and operation parameter that controls or influences characteristics identified as critical, special, or major which have been deemed impractical for the application of SPC techniques. A pamphlet on application of SPC for short production runs is available through the Contracting Officer.

f. Statistical evidence in the form of control charts shall be prepared and maintained for each process or operation parameter identified in the detailed plan. These charts shall identify all corrective actions taken on statistical signal. During production

CONTINUATION SHEET	Reference No. of Document Being Continued PIIN/SIIN DAAA09-03-R-0115 MOD/AMD	Page 19 of 43
--------------------	---	---------------

Name of Offeror or Contractor:

runs, control charts shall be maintained in such a manner to assure product is traceable to the control charts. At the conclusion of the production run, a collection of charts traceable to the product, shall be maintained for a minimum of 3 years. The control charts shall be provided to the Government for review at any time upon request.

g. When the process or operation parameter under control has demonstrated both stability and capability, the Contractor may request, in writing, through Administrative Contracting Officer (ACO) and Contracting Officer (CO) channels to the Product Assurance and Test Directorate, that acceptance inspection or testing performed in accordance with contract requirements be reduced or eliminated. Upon approval by the CO, acceptance shall then be based upon the accepted SPC plan, procedures, practices and the control charts.

h. The Government will not consider requests for reduction or elimination of 100% acceptance inspection and testing of parameters or characteristics identified as critical in the technical data package, specifications or drawings of this contract if any one of the following conditions exist:

(1) The existing process currently utilizes a fully automated, cost effective, and sufficiently reliable method of 100% acceptance inspection or testing for an attribute-type critical parameter or characteristic.

(2) The Contractor utilizes attribute SPC control chart methods for the critical parameter or characteristic.

(3) The critical parameter or characteristic is a first order, single point safety failure mode (nonconformance of the critical parameter or characteristic in and of itself would cause a catastrophic failure).

i. The Government will only consider reduction or elimination of the 100% acceptance inspection or test requirement for other critical parameters or characteristics if either of the following conditions are met:

(1) The process is in a state of statistical control utilizing variable control chart methods for the critical parameter or characteristic under control and the process performance index (Cpk) is at least 2.0. The Contractor shall maintain objective quality evidence through periodic audits that the process performance index is being maintained for each production delivery.

(2) The critical parameter or characteristic is conclusively shown to be completely controlled by one or more process or operation parameters earlier in the process, and those parameters are in a state of statistical control utilizing variable data, and the product of the probability of the conformance for each earlier parameter associated to the critical characteristic is better than or equal to a value equivalent to that provided by a Cpk of at least 2.0. The Contractor shall maintain objective quality evidence through periodic audits that the process performance indexes are being maintained for each production delivery.

j. For characteristics other than critical, requests for reduction or elimination of acceptance inspection and testing shall be considered when the process performance index is greater than or equal to a Cpk of 1.33 for variables data. Requests shall be considered for attributes data when the percent beyond the specification limits is less than or equal to .003 (Cpk=1.33).

k. Process or operation parameters under reduced or eliminated inspection or testing that undergo a break in production less than 6 months in length, may continue to operate under reduced or eliminated inspection or testing provided there has been no degradation below a Cpk of 1.33 (2.0 for criticals). Any break in production greater than 6 months shall require resubmission of the request for reduction or elimination of inspection or testing through the same channels cited in paragraph g above.

1. Not used.

m. Immediately following a change to a process or operation parameter under reduced or eliminated inspection, the process capability (Cp) or process performance indexes (Cpk) shall be recalculated and documented for variable data; the grand average fraction defective shall be recalculated for attribute data. If any of these values have deteriorated, immediate notification shall be made to the Government along with the associated documentation. Return to original inspection and test requirements may be imposed as stipulated in paragraph n below.

n. The Government reserves the right to withdraw authorization to reduce or eliminate final acceptance inspection or testing and direct the Contractor to return to original contract inspection or test procedures at any indication of loss of process control or deterioration of quality.

--	--	---

Name of Offeror or Contractor:

- a. Rework and Repair are defined as follows:
- (1) Rework - The reprocessing of nonconforming material to make it conform completely to the drawings, specifications or contract requirements.

(2) Repair - The reprocessing of nonconforming material in accordance with approved written procedures and operations to reduce, but not completely eliminate, the nonconformance. The purpose of repair is to bring nonconforming material into a usable condition. Repair is distinguished from rework in that the item after repair still does not completely conform to all of the applicable drawings, specifications or contract requirements.
- b. Rework procedures along with the associated inspection procedures shall be documented by the Contractor and submitted to the Government Quality Assurance Representative (QAR) for review prior to implementation. Rework procedures are subject to the QAR's disapproval.
- c. Repair procedures shall be documented by the Contractor and submitted on a Request for Deviation/Waiver, DD Form 1694, to the Contracting Officer for review and written approval prior to implementation.
- d. Whenever the Contractor submits a repair or rework procedure for Government review, the submission shall also include a description of the cause for the nonconformances and a description of the action taken or to be taken to prevent recurrence.
- e. The rework or repair procedure shall also contain a provision for reinspection which will take precedence over the Technical Data Package requirements and shall, in addition, provide the Government assurance that the reworked or repaired items have met reprocessing requirements.

(End of Clause)

(ES7012)

E-9	52.246-4532 OSC	DESTRUCTIVE TESTING	MAY/1994
-----	--------------------	---------------------	----------

- a. All costs for destructive testing by the Contractor and items destroyed by the Government are considered as being included in the contract unit price.
- b. Where destructive testing of items or components thereof is required by contract or specification, the number of items or components required to be destructively tested, whether destructively tested or not, shall be in addition to the quantity to the delivered to the Government as set forth in the Contract Schedule.
- c. All pieces of the complete First Article shall be considered as destructively tested items unless specifically exempted by other provisions of this contract.
- d. The Contractor shall not reuse any components from items used in a destructive test during First Article, lot acceptance or inprocess testing, unless specifically authorized by the Contracting Officer.
- e. The Government reserves the right to take title to all or any items or components described above. The Government may take title to all or any items or components upon notice to the Contractor. The items or components of items to which the Government takes title shall be shipped in accordance with the Contracting Officer's instructions. Those items and components to which the Government does not obtain title shall be rendered inoperable and disposed of as scrap by the Contractor.

I-66	52.217-6	EVALUATED OPTION FOR INCREASED QUANTITY	MAR/1989

a. This solicitation includes an evaluated option (See Section M).

b. The Government reserves the right to increase the quantity of item 001 by a quantity of up to and including but not exceeding 200 percent as an evaluated option at the price(s) quoted below.

c. If the Contractor does not quote a price hereunder, the lowest price offered/bid in the Schedule for item 001 shall be the price used for evaluation/award of any option quantities. All evaluation factors identified in the solicitation, except F.O.B. origin transportation costs, will be applied to the option quantity for evaluation purposes.

d. The Contracting Officer may exercise the evaluated option at any time preceding GOVERNMENT ACCEPTANCE OF 85% OF THE TOTAL QUANTITY AWARDED UNDER THE BASIC CONTRACT by giving written notice to the Contractor.

e. Delivery of the items added by exercise of this option shall continue immediately after, and at the same rate as delivery of like items called for under the contract, unless the parties agree otherwise.

f. Subject to the limitations contained in this clause, the Government may exercise this option on one or more occasions.

g. Offered Unit Prices for the Option Quantities are:

	<u>Unit Price</u>
Evaluated Option (F.O.B. Destination)	\$ _____ (CLIN 0001)

Varying prices may be offered for the option quantities actually ordered and the dates when ordered. In as much as the unit price for the basic quantity may contain starting, load, testing, tooling, transportation or other costs not applicable to option quantities, offerors are requested to take these factors into consideration while setting forth the unit price(s) for the option quantities. The option price is expected (but not required) to be lower than the unit price for the initial quantity.

I-72 252.211-7005 SUBSTITUTIONS FOR MILITARY OR FEDERAL SPECIFICATIONS AND STANDARDS MAR/1999
DFARS

(a) Definition. "SPI process," as used in this clause, means a management or manufacturing process that has been accepted previously by the Department of Defense under the Single Process Initiative (SPI) for use in lieu of a specific military or Federal specification or standard at specific facilities. Under SPI, these processes are reviewed and accepted by a Management Council, which includes representatives from the Defense Contract Management Command, the Defense Contract Audit Agency, and the military departments.

(b) Offerors are encouraged to propose SPI processes in lieu of military or Federal specifications and standards cited in the solicitation. A listing of SPI processes accepted at specific facilities is available via the Internet in PDF format at <http://www.dcmc.hq.dla.mil/spi/dbreport/modified.pdf> and in Excel format at <http://www.dcmc.hq.dla.mil/spi/dbreport/modified.xls>.

(c) An offeror proposing to use an SPI Process in lieu of military or Federal specifications or standards cited in the solicitation shall--

(1) Identify the specific military or Federal specification or standard for which the SPI process has been accepted,

Name of Offeror or Contractor:

(2) Identify each facility at which the offeror proposes to use the specific SPI process in lieu of military or Federal specifications or standards cited in the solicitation;

(3) Identify the contract line items, subline items, components, or elements affected by the SPI process; and

(4) If the proposed SPI process has been accepted at the facility at which it is proposed for use \, but is not yet listed at the Internet site specified in paragraph (b) of this clause, submit documentation of Department of Defense acceptance of the SPI process.

(d) Absent a determination that an SPI process is not acceptable for this procurement, the Contractor shall use the following SPI processes in lieu of military or Federal specifications and standards:

(Offeror insert information for each SPI process)

SPI Process: _____

Facility: _____

Military or Federal
Specification or Standard: _____

Affected Contract Line Item Number, Subline Item Number, Component, or Element: _____

(e) If a prospective offeror wishes to obtain, prior to the time specified for receipt of offers, verification that an SPI process is an acceptable replacement for military or Federal specifications or standards required by the solicitation, the prospective offeror--

(1) May submit the information required by paragraph (d) of this clause to the Contracting Officer prior to submission of an offer; but

(2) Must submit the information to the contracting Officer at least 10 working days prior to the date specified for receipt of offers.

(a) Factor 1: Past Performance:

Subfactor 1a: On-Time Delivery: The offeror shall provide information regarding recent, relevant past performance in the areas of timeliness of deliveries. The offeror must provide information for deliveries made, deliveries scheduled-to-be made, and deliveries rescheduled-to-be made during the period of recent past performance. Include all supporting information for verification purposes concerning all these covered deliveries, even though this supporting information may precede the period defined as recent above. If there was a slippage, the offeror shall provide all pertinent information regarding the slippage. If the offeror accelerated deliveries or increased production rates to meet the customers' needs, the offeror shall describe how their delivery/performance exceeded contract delivery requirements. Offerors shall also provide information regarding how well they worked with previous Government representatives by providing a brief narrative about past experiences where his responsiveness, thoroughness and expertise were a significant factor in a problem's resolution. For verification purposes, offerors shall furnish a point of contact/name, phone number, contract number and dollar value relative to the examples provided.

Subfactor 1b: Quality and/or Quality Program: Offerors shall provide information on their recent and relevant performance in the area of quality assurance, including quality assurance standards applied on recent, relevant contracts. The Government will evaluate all relevant quality issues that it discovers during the period of recent performance, regardless of when the actual delivery was made. The offeror will be required to submit data explaining corrective/preventive actions that have been taken to improve their process(es) and/or resolve their quality problems. The offeror shall disclose information about previous Request for Waivers (RFWs), Request for Deviations (RFDs), Quality Deficiency Reports (QDRs), First Article Test failures, Lot Acceptance Test failures, and/or other product quality or Quality Program related problems. Offerors' submissions must be clear and concise when describing the deficiency and stating the corrective/preventive action, when it was implemented, and its effectiveness. Offerors shall also provide information regarding how well they worked with previous Government representatives by providing a brief narrative about past experiences where his responsiveness, thoroughness and expertise were a significant factor in a problem's resolution. For verification purposes, offerors shall furnish a point of contact/name, phone number, contract number and dollar value relative to the examples provided.

(b) Factor 2: Technical Ability:

Subfactor 2a: Critical Skills, Processes and Procedures: The offeror shall provide information of their demonstrated ability to provide the technical expertise, equipment, processes and the personnel necessary to produce and deliver a quality product. The offeror may also provide evidence of related certifications, abilities, and/or capabilities that would enhance the technical expertise of the offeror. The offeror shall address, at a minimum, their ability to assure process controls associated with the procurement (of materials, components, etc.), fabrication, inspection, and testing of the MK14, including Material/Forgings; Heat Treating/Hardness; Machining and Threading; Application of Surface Treatments; and Magnetic Particle Inspection..

CONTINUATION SHEET	Reference No. of Document Being Continued PIIN/SIIN DAAA09-03-R-0115 MOD/AMD	Page 40 of 43
Name of Offeror or Contractor:		

Subfactor 2b: Quality System: The offeror shall submit their General Quality Manual. The manual must demonstrate that the offeror's quality system meets the requirements of ISO 9002-1994 (or 9001-2000). The offeror shall provide specific input/information describing how they will comply with the requirements of the Quality Assurance Provisions (QAP). The offeror shall describe use of indicators and or metrics designed to provide feedback relating to the quality and conformance of the product to its design requirements. The offeror shall also provide information relative to preventive action initiatives being implemented. Evidence of quality awards and/or quality certifications should be submitted for consideration.

Subfactor 2c: Testing and Inspection: The offeror shall address their approach and their ability to meet and perform examinations and testing identified in the solicitation/technical data specifications, including, but not limited to, the First Article Test (FAT) and Lot Acceptance Test (LAT) requirements. The offeror shall also provide a time-phase schedule indicating the integration of inspection and testing requirements, procedures and plans, and primary raw material deliveries to meet the solicitation delivery requirements. The offeror shall provide information related to their equipment and techniques necessary to perform the tests and inspections, as well certifications and traceability of measurement standards for such equipment, where applicable.

(c) Factor 3: Price: The offeror shall submit a firm fixed price in Schedule B of the solicitation. Also, the offeror may submit a separate price for the evaluated option clause in Section I of the solicitation. If the offeror does not submit a separate price for the evaluated option clause, the price provided in the solicitation will be used.

(c) Information to be submitted: Offerors shall provide Best Value information by addressing each factor/sub-factor in the format and sequence identified in the solicitation. The offerors should provide information in sufficient detail to allow the Government to make best value assessment of the offerors past performance and technical abilities. The offeror shall identify key subcontractors and submit related Best Value information. Best Value information shall be submitted on CD-ROM (five copies, plus an original hardcopy), or if in hardcopy only, an original and four copies.

The evaluation team may determine that an on-site visit or a Capability Study of the offeror's facility (of those offeror's determined to be in the competitive range), may be necessary to verfiy or confirm information submitted in the offeror's proposal; however, offeror's are cautioned that the Government intends to award without site visits, if practical. The competitive range shall include all of the most highly rated proposals unless the range is further reduced for purposes of efficiency.

L-14 52.212-4501 ELECTRONIC AWARD NOTICE APR/2001
OSC

1. Any contract awarded as a result of this solicitation will be posted to the Electronic Document Access (EDA) system website, <http://eda.ogden.disa.mil/>, and paper copies will not be distributed. This is a material condition of the solicitation and by submission of a bid or proposal, the vendor agrees to accept an electronic award transmitted in the manner described above. In order to obtain an electronic copy of the award, you must be registered in the EDA system. Guidance/instructions for registration can be obtained at the above website.

2. Notice of award to the contractor receiving the award will be issued only via electronic mail. Vendors who wish to be notified if they receive an award as a result of this solicitation must provide their electronic mail address in the space provided below. If the vendor fails to provide an electronic mail address, then a separate notice of award will not be provided and it shall be the sole responsibility of the vendor to periodically check the Federal Business Opportunities (FedBizOpps) - FBO Synopsis/Award Search website <http://www.fedbizopps.gov/> or the Army Single Face to industry (ASFI)/Procurement Notifications website <http://acquisition.army.mil> to determine if he/she has received an award. In this event, the vendor's failure to check FEDBIZOPPS or the ASFI in a timely manner shall not be an excuse for failure to perform or grounds for a delivery schedule extension.

3. Notice of award to unsuccessful offerors shall be issued only via electronic mail from the Contracting Office or via the FedBizOpps/Vendor Notification feature. Vendors who wish to receive an electronic mail notice if they are unsuccessful must provide an electronic mail address in the space provided below. If the vendor fails to provide an electronic mail address, then a separate notice will not be provided, and it shall be the sole responsibility of the vendor to periodically check the ASFI/Procurement Notifications or the FedBizOpps/Award Notification to determine if an award has been made. In this event, the vendor's failure to check these sites to determine if an award has been made shall not constitute grounds for an extension of any protest period allowed by regulation.

M-3	15.304(C)	EVALUATION FACTORS AND SIGNIFICANT SUBFACTORS FOR AWARD	OCT/1997
-----	-----------	---	----------

(a) The Government expects to award a contract to that offeror whose proposal is determined to represent the "best value" to the Government. Best value is determined by an integrated assessment of the evaluation factors. Award will be based upon the following evaluation factors:

(1) Past Performance is slightly more important than Technical Ability. Technical Ability is slightly more important than Price. Past Performance and Technical Ability, when combined, are significantly more important than Price.

(2) Within Past Performance, the sub-factors are all of equal importance.

(3) Within Technical Ability, the sub-factors are all of equal importance.

(4) Price contains no sub-factors and will be evaluated in accordance with the related factors stated in the solicitation.
